

Regulatory Training Services will be expanding their services to provide Emergency Planning Training for other authorities. The training can be tailored to your authority's needs and is delivered by experienced Emergency Planning Officers.

If you would be interested in any of the training below, or have training that you would like delivered for your authority, please email us at [ts.training@kent.gov.uk](mailto:ts.training@kent.gov.uk).

## Introduction to Emergency Planning

A broad introduction to all facets of a disaster, including the role of the local authority, borough/district councils and other statutory and voluntary agencies. There will be detailed examination of the immediate impact of a major incident, including rescue, evacuation and the inevitable paperwork.

## Rest Centre Part 1 & Part 2

This event will provide instruction in the key principles of rest centre operations and impart an understanding of the multi-agency nature of emergency response.

## Rest Centre Managers

This event will provide instruction in the key principles of rest centre management and impart an understanding of the multi-agency nature of emergency response.

## Voluntary Sector and Community Group Training

A broad introduction to all facets of a disaster, including the role of the local authority, other statutory and voluntary agencies. There will be detailed examination of the immediate impact of a major incident, including rescue, evacuation and the inevitable paperwork. This event will provide instruction in the key principles of rest centre operations and impart an understanding of the multi-agency nature of emergency response.
